Information Analysis & Reporting for Windows NT/95

Business Benefits

PROMACE Explorer delivers improved operational efficiency of a process plant by enhancing the integration of information drawn from a large number of diverse sources.

PROMACE Explorer can enhance the value of new and existing Unix based PROMACE Plant Information Management Systems (PIMS) by adding the benefits of Windows technology.

Functions

PROMACE Explorer is an integrated suite of software applications that provides extensive reporting and analysis facilities.

PROMACE Explorer can be configured to analyse complex correlations between data.

PROMACE Explorer provides managers with up to the minute business information needed to make decisions about plant operation.

PROMACE Explorer's powerful scheduled and ad-hoc reporting tools enable reports to be generated in a wide variety of formats, including internet/intranet.

Functions available in reports are numerous, and include:

REAL TIME, ARCHIVE & HISTORICAL INFORMATION

TIME FRAMES FROM MINUTES TO YEARS

SNAPSHOT OR LONG TERM HISTORY

TRENDING ANALYSIS

KEY PERFORMANCE INDICATORS & PLANT PROFITABILITY

COMPARISON OF DIFFERENT TIME FRAMES

The component based nature of **PROMACE Explorer** provides the features necessary to monitor processes effectively and the power to embed ActiveX components into the graphical displays. Information is always up to date as **PROMACE Explorer** operates in real time, hence reports present the current status of the plant.

Service

Yokogawa Marex has over 30 years experience delivering information management solutions to diverse industries worldwide.

Yokogawa Marex is committed to ensuring that products deliver all possible benefits and to providing continuous support to customers.
